

ENSC_488_Project_spring 2020

Hi Guys,

Please follow the images in the order of their numbers. Please note that my version of VS is 2015.

But the one in the lab is 2019. You may find some differences in the interface at first but the names like, "new project" or "empty project" are the same in all versions.

Good luck and if you have any question, let me know.

Hadi
